

## XROZZ TABLE BOOTH

Xrozz Table Booth provides a secluded workspace in an open plan office and is optimal in the activity-based office. The screens with metal fittings form a booth construction that creates a private sphere in the larger context.

The booth has a smart and easy-to-assemble design, which also ensures that the edges are tight. The practical design reduces noise and gives your employees a comfortable working environment.

The standard width of the side screens is 800 mm. The thickness of the screens is 40 mm.

Translated with DeepL.com (free version)

40 mm.
